NOTICE: This application form is authorized by section 283.37, Wis. Stats., and Chapters NR 151 and 216, Wis. Adm. Code. Personally identifiable information on this form may be used for other program purposes and may be made available to requestors under Wisconsin's Public Records laws and be posted on the Department's internet site.

Instructions: Complete the following for all permit applications. If additional space is needed to respond to a question, attach additional pages. Provide descriptions below that explain the program activities that you expect to develop and implement to comply with the Municipal Separate Storm Sewer System (MS4) general permit (<http://dnr.wi.gov/org/water/wm/nps/stormwater/muni.htm>). Section 3 of the MS4 general permit contains the compliance schedules that direct when the individual program activities need to be developed and submitted to the Department for review. The detailed programs that are developed and submitted to the Department for review may deviate from the program activities described below if necessary. The descriptions provided below are necessary for the Department to verify that the municipality's program activities comply with the permit.

Section VI: Summary of Municipal Storm Water Program Activities

Describe the programs or activities the municipality is doing or will do to comply with the requirements of the MS4 general permit. Attach additional pages if necessary.

A. Public Education and Outreach

Describe the public education and outreach program activities that the municipality will implement to comply with section 2.1 of the MS4 general permit.

The City has received an Urban Nonpoint Source Grant for developing a Stormwater Management Plan. The stormwater management plan will recommend elements to be included in the City's Stormwater Management Information and Education Program, based on guidance and generic materials provided by the DNR and related organizations such as the University of Wisconsin Extension and Jefferson/Walworth Counties. The Public Education and Outreach program will meet the requirements of Section 2.1 of the MS4 General Permit.

B. Public Involvement and Participation

Describe the public involvement and participation program activities that the municipality will promote to comply with section 2.2 of the MS4 general permit.

The Stormwater Management Plan will include two public presentations to inform the public on the City's plan for reducing nonpoint source pollution. Public meetings will provide the opportunity for public input and comment into plan development. Additional opportunities for public involvement will be provided as needed, in conformance with Section 2.2 of the MS4 general permit.

C. Illicit Discharge Detection & Elimination

Describe the illicit discharge detection and elimination program authority and activities that the municipality will develop and implement to comply with section 2.3 of the MS4 general permit.

The City has received funding from DNR under the Urban Nonpoint Source and Stormwater Planning Grant program to develop a Stormwater Management Plan. The stormwater management plan will include development of storm sewer mapping and an illicit discharge tracking program, as described below:

1. The City will prepare a storm sewer map showing the following:
 - a. Locations of urban outfall points to Waters of the State within the Whitewater City Limits. Names and locations of Waters of the State that receive discharges from these outfalls will be identified.
 - b. Watershed subbasin drainage divides defining areas draining to each identified outfall.
 - c. Locations of municipally owned stormwater management and conveyance facilities, including major storm sewers, ditches, and existing structural controls such as detention basins.
 - d. Locations of UW-Whitewater stormwater facilities, based on information provided by others.
 - e. City of Whitewater Stormwater Planning area boundary and corporate limits.

Describe the post-construction storm water management program authority and activities that the municipality will develop and implement to comply with section 2.5 of the MS4 general permit.

The City of Whitewater has developed and adopted a Stormwater Management Ordinance funded by a Lake Planning Grant. This ordinance is consistent with the goals of NR 151 and has been reviewed by DNR staff in conjunction with the grant. This ordinance provides legal authority for the city to control nonpoint source runoff from postconstruction, and redevelopment sites in conformance with NR 151 standards.

F. Pollution Prevention

Describe the pollution prevention program activities that the municipality will implement to comply with section 2.6 of the MS4 general permit.

The City, as part of the Stormwater Management Plan, will develop a Stormwater Pollution and Prevention Plan (SWPPP) to evaluate current municipal stormwater management practices in conformance with Section 2.6 of the MS4 general permit. The SWPPP will include reviewing and summarizing current municipal practices that may affect stormwater runoff to Waters of the State. Practices reviewed will include materials handling and storage, deicing, street sweeping, leaf and grass clipping collection, and turf maintenance. Additions and refinements intended to achieve stormwater management goals and objectives will be identified and implemented.

Section VII: Certification

Certification: I hereby certify that I am an authorized representative of the municipality that is the subject of this application for general permit coverage, and that the information provided is true and complete, to the best of my knowledge. I understand that Wisconsin law provides severe penalties for submitting false information.
